WHAT WE DO:

We get you to where you want to go by means of **passion planning, storytelling and visual wording**.

PASSION PLANNING Go beyond programs!

Logic is limited, passion is powerful and unlimited. What do you want?

We transfer passion which activates sustained action. You benefit from bespoke business solutions designed for your personal and professional success through business consulting and personal coaching.

STORYTELLING Go beyond training!

Our approach is unique. Your skills acquisition is boosted by keynote talks and events with visuals and graphic recording. Think back; your learning process started off by observing and collecting mental images long before you learnt how to talk. We provide experiential knowledge acquisition strongly supported by visuals.

VISUAL WORDING Go beyond handouts!

We write your story!

We create and publish illustrated company relevant handbooks. Your customised handbook will contain personal encounters and challenges, practical solutions, case studies and applicable theory best suited to your needs.

WHAT YOU GET:

A powerful cross-continental presence through inclusive international business practice.

- + Impassioned management and workforce development.

- + Business events that provide master plans to inspire and enhance interpersonal skills in the ever changing environment of a culturally diverse workforce.

- + Practical case studies and models supported by academic input.

- + Inclusive productive working environments by means of: exploring cultural concepts and dimensions like rites, traditions and values which impact our communication and behaviour.

- + The „big picture“, everything involved with where you started, where you are and where you are going.

Is your world and working environment constantly changing?

Ours is too.

With years of experience on the international stage we easily tailor and structure our content and the design of our events to fulfill your requirements.

WHO WE ARE:

We are change activists – women passionate about sharing, empowering and activating action toward sustainable social, environmental and business changes.

Hester Bergh-Appoyer

Hester, keynote speaker, author, neuro-leadership coach and intercultural facilitator with a passion for connecting people. She promotes and supports your skills acquisition through her inspiring and encouraging storytelling.

Karin Hofmann

Karin, illustrator and communication facilitator with a passion for ideas and designing identity. She leads you through your personal development and professional interactions by means of her entertaining talent to create catchy visuals.
